

## DC Baramulla for imparting qualitative education

Says nations progressed by consolidating their education system

Baramulla, 07 July: Deputy Commissioner Baramulla Dr Nasir Ahmad Naqash today exhorted that imparting qualitative education to the students is the only way out to enable them to compete on state, national and other levels. He said that nations can't progress and can't achieve the higher levels of development unless its educational mechanism is strengthened at the grass root level.

DC said this during a function organised here in connection with annual Day celebration of a local private school wherein he was invited as the chief guest.

DC said that a strong education system is the foundation stone of a strong nation and those nations who consolidated their education mechanism have excelled in every field.

While terming teacher as a nation builder, Dr Naqash signified his role in the overall career development of a student and said that our commitment is to build capacity building measures so that overall performance of the teachers are enhanced. Meanwhile he urged upon the teachers to create conducive environment while dealing with the students and stressed for adopting student friendly learning measures. He also assured not leaving any stone unturned on his administration's side in improving the education system.

Meanwhile, various cultural items were presented by the students with different titles and themes. Best performing students were given awards for their felicitation.

Director Planning, AG Malik, Tehsildar Baramulla Maeen Kakroo and various district officers, parents, civil society members and a large gathering of students were present on the occasion.
